

VOLUNTEERS NEEDED! CALLING ALL ENGINEERS

DESIGN SHOWCASE

A Mass STEM Hub event for PLTW students

Friday, June 8, 2018, 9:30am-1:30pm

Merck Research Laboratories

33 Avenue Louis Pasteur, Boston, MA 02115

Middle school showcase for Project Lead The Way students to present their adaptive toy designs for a child with cerebral palsy

In Project Lead The Way's middle school Design & Modeling unit, students learn the engineering design process and the culminating project challenges students to design, test, and fabricate an adaptive toy for a child with cerebral palsy. Throughout the course, students learn the engineering design process, critical measurement and mathematical modeling skills, computer-aided design software, and about cerebral palsy. This showcase will give students the opportunity to present their work to an authentic audience and receive real-world feedback as well as connect with industry professionals!

PROGRAM OF EVENTS

9:30-10:00	Student arrival and set up
10:00-11:30	Showcase
11:30-12:30	Lunch
12:30-1:30	Presentation by Boston Children's Hospital

Sign up to volunteer by visiting:
mass-stemhub.org/volunteer

As a volunteer you will arrive to the event and Mass STEM Hub will direct you
