

## **Instructions for Student Industry Connects - Bulk Submission**

*Any challenges, reach out to Claire (csullivan@mass-stemhub.org or 510-387-7203)*

### Overview instructions

1. Create google folder with all submissions of a certain type (ex. CSIM Blinking Sign projects)
  - One document per submission
  - Each document labeled: PLTWclass\_TeacherName\_StudentInitials (ex. CSIM\_Michon\_AJL for a CSIM project from Mr. Michon's class, submitted by Alexis, Janelle and Liam)
2. Submit 1 Bulk Submission on the Student Industry Connects platform, to indicate the type of projects submitted and provide the link to the full submission folder

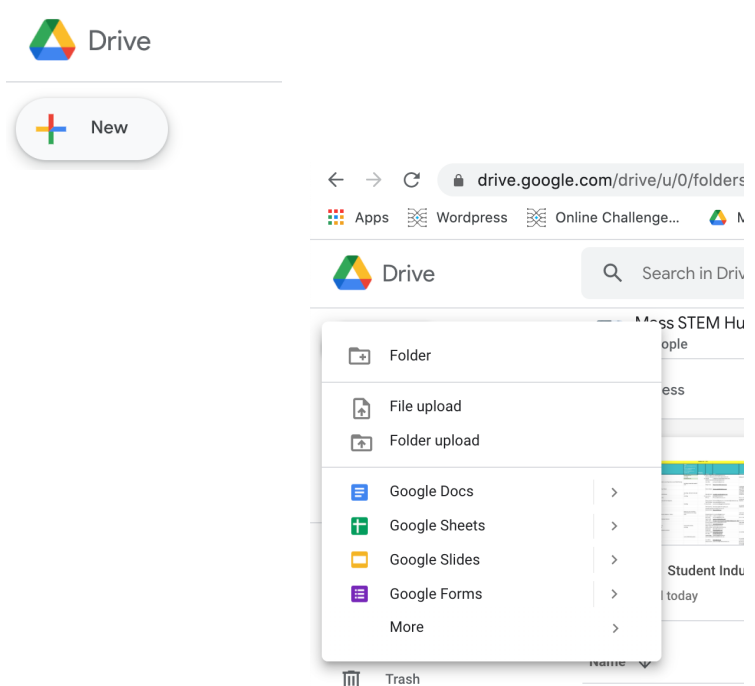

### Step by step instructions

Have students submit their work to you however you normally do -- *suggested projects and submission checklists here*

- ideally a PDF, but google doc is fine if needed -- make sure permissions are set to "Anyone with link" is a "Viewer"
  - if creating a PDF from a Google doc that has links in it, make sure to "download as PDF" instead of "print to PDF" such that all the links continue to work
- Using the following naming convention: PLTWclass\_TeacherName\_StudentInitials  
ex. CSIM\_Michon\_AJL for a CSIM project from Mr. Michon's class, submitted by Alexis, Janelle and Liam

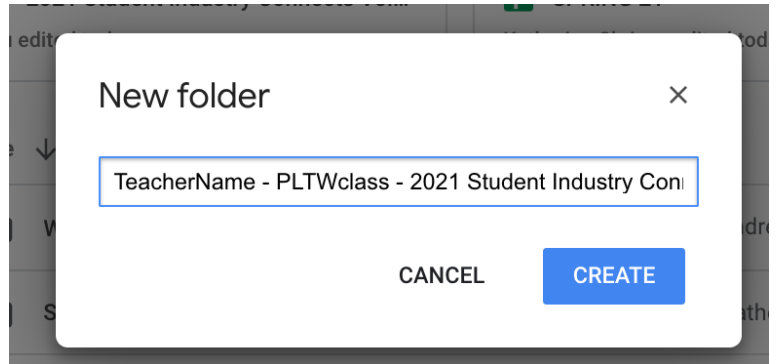

Create a Google Folder to share the submitted work --

- Go to your Google Drive folder
- click the + New in the top left
- and select "Folder"

Name and create the new folder, with the following naming convention: TeacherName - PLTWclass - 2021 Student Industry Connects

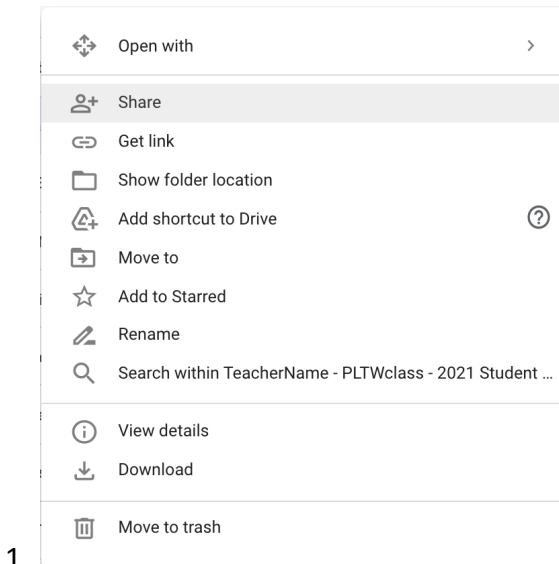

*example: Michon - CSIM - 2021 Student Industry Connects*

Collect all the submitted files into the folder you created & change the share settings such that

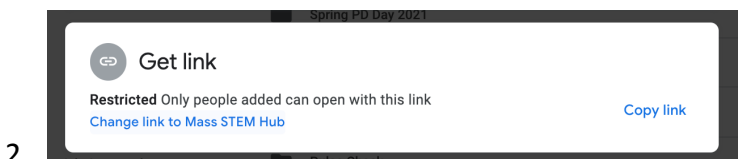

- "Anyone with the link" is a
- "Content Manager"

1. Right-click on the folder & Select "Share"

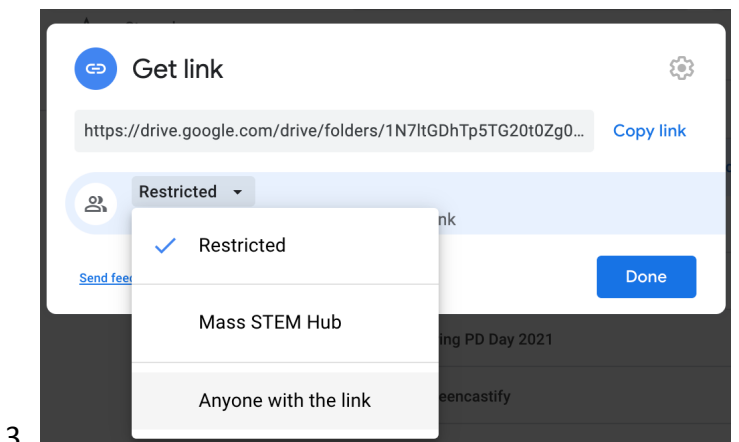

1.

2. Click "Change link" at bottom in blue

2.

3. Change "Restricted" to "Anyone with link"

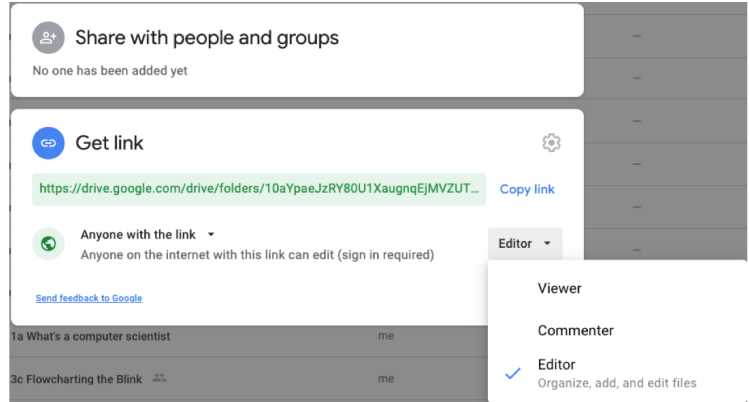

3.

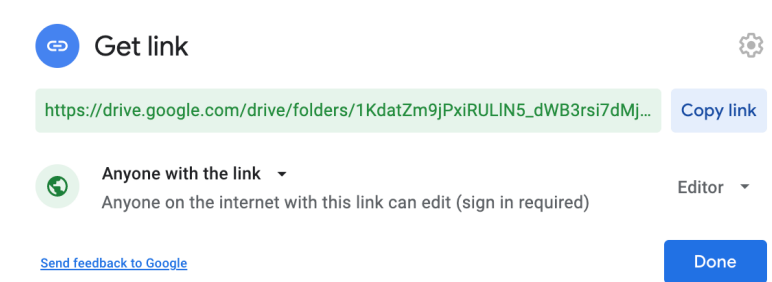

4. Change “Viewer” to “Editor”

5. Click the blue “Copy link” on the right to get the share link to the folder → **paste this somewhere, you’ll need it shortly**

4.

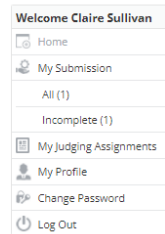

5.

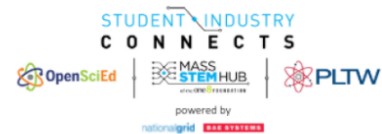

Complete the “bulk submission” form to submit the whole folder of student work

Go to:  
<https://mshindustrychallenges.secure-platfor.com/a/>

Click: click here to submit

Thank you for participating in Mass STEM Hub Students-Industry Connects!

[Click here to submit a project for review by industry experts!](#)

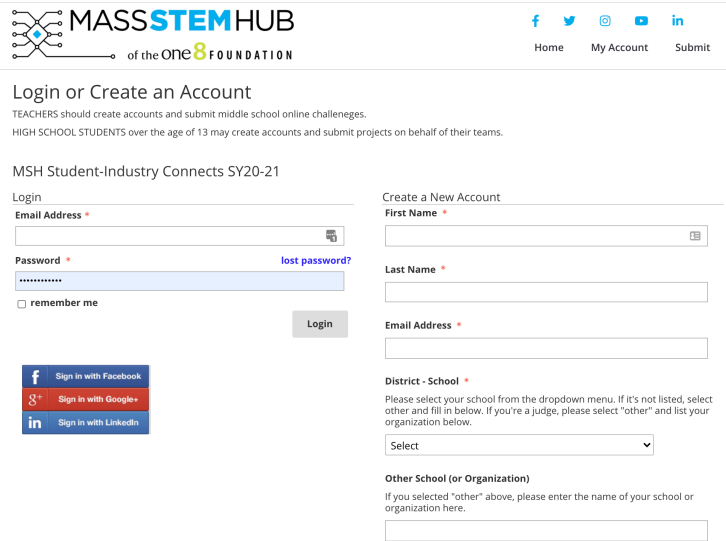

Middle school teachers - please submit on behalf of your students. You can submit multiple projects on behalf of the different student teams.

High school students - please submit on behalf of yourself and/or your team.

Any questions, please email Claire at Mass STEM Hub for support.

Then, click "Save and Next" button in bottom-right corner

**STUDENT INDUSTRY CONNECTS**

OpenSciEd | MASS STEM HUB | PLTW

powered by nationalgrid | GAS SYSTEMS

Thank you for participating in Student Industry Connects! Please select the type of project you are submitting to industry professionals for feedback.

(select)

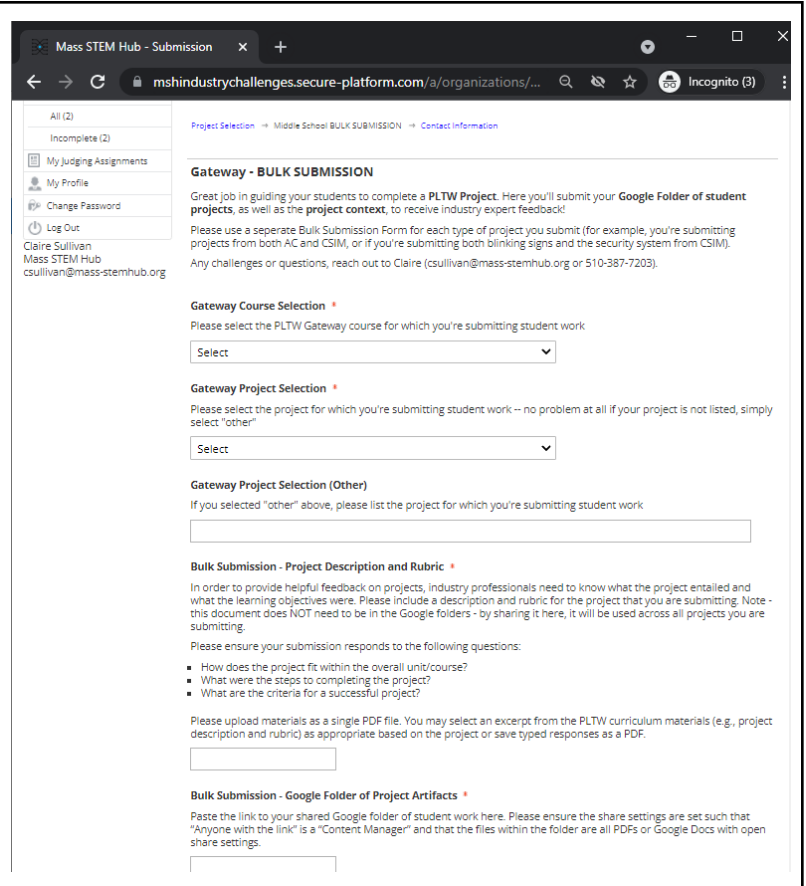

(select)

- Middle School PLTW Projects - BULK SUBMISSION
- High School PLTW Project
- Middle School PLTW STEM Week Project - Microplastics
- Middle School PLTW Project
- OpenSciEd Project

Complete the submission form by:

- Select the Gateway course and project for which you're submitting work
- If selecting an "other" project, write in the name of the project
- Upload a PDF of the Project Description and Rubric that provides context to industry professionals about the project that students completed. Please provide one document that can be used for all submissions
- Enter the share link for the Google folder of student work you created above

Then, click the Save and Next button at the bottom

### Gateway - BULK SUBMISSION

Great job in guiding your students to complete a PLTW Project. Here you'll submit your **Google Folder of student projects**, as well as the **project context**, to receive industry expert feedback!

Please use a separate Bulk Submission Form for each type of project you submit (for example, you're submitting projects from both AC and CSIM, or if you're submitting both blinking signs and the security system from CSIM). Any challenges or questions, reach out to Claire (csullivan@mass-stemhub.org or 510-387-7203).

**Gateway Course Selection**

Please select the PLTW Gateway course for which you're submitting student work

Select

**Gateway Project Selection**

Please select the project for which you're submitting student work -- no problem at all if your project is not listed, simply select "other"

Select

**Gateway Project Selection (Other)**

If you selected "other" above, please list the project for which you're submitting student work

**Bulk Submission - Project Description and Rubric**

In order to provide helpful feedback on projects, industry professionals need to know what the project entailed and what the learning objectives were. Please include a description and rubric for the project that you are submitting. Note - this document does NOT need to be in the Google folders - by sharing it here, it will be used across all projects you are submitting.

Please ensure your submission responds to the following questions:

- How does the project fit within the overall unit/course?
- What were the steps to completing the project?
- What are the criteria for a successful project?

Please upload materials as a single PDF file. You may select an excerpt from the PLTW curriculum materials (e.g., project description and rubric) as appropriate based on the project or save typed responses as a PDF.

**Bulk Submission - Google Folder of Project Artifacts**

Paste the link to your shared Google folder of student work here. Please ensure the share settings are set such that "Anyone with the link" is a "Content Manager" and that the files within the folder are all PDFs or Google Docs with open share settings.

Last step!

Confirm your contact information to receive your students' feedback and connection to an industry professional for a virtual classroom visit.

Then, click the Save and Finalize button.
